

Editorial

This is my final issue - and despite one final and positively last appearance before - this one is really the last ! Well, ageing prima donnas always say that.

So it is much more important to welcome the New Editor, Jack Morrison. Jack was a founding member of Clydebank Branch back in 1961 - when he was as young as you could be and dive. So he is still a sprightly cockerel and like all members of the Editorial team still a keen and practising diver. So he can speak with authority on practical subjects. His other great hobby is photography - including underwater photography and has had more mis-functioning strobes than many divers have had successful dives. He has also been on the Committee of the Paisley International Competitions and in his time Chairman and Diving officer of Clydebank Branch and also Chairman of the Glasgow Photo Union.

Cover Picture *Nudibranch* by Jim Watson. First Prize in the UW Photo Competition for 97.

CONTENTS

The magazine of the SSAC

MAY 1998
VOLUME 37 Number 2
