# Mini Safaris To Fury Shoals

Dive sites at Wadi Lahami

SITUATED 150KM south of Marsa Alam and just above Ras Banas on the southern Red Sea, you'll discover the remote location of Wadi Lahami. Those lucky enough to have dived from here already will know that this really is a diver's haven.

The multitude of offshore reefs collectively known as 'Fury Shoals' located just six miles offshore were previously accessed by daily RIB diving, whilst staying land based or within a one week liveaboard itinerary.

In the true spirit of their ongoing commitment to offer the very best in diving, Southern Eco Village Wadi Lahami, has recently introduced a 'Mini Safari' with their new boat, The *Fury Shoal Explorer*. The mini safari lasts three days and two nights with the *Fury Shoal Explorer* cruising these world class dive sites and routes, still unknown to many. The new programme can be pre-booked with Oonasdivers to a maximum of 18 guests.

Oonasdivers also arrange tours to

Marsa Shagra and Marsa Nakari located further north. Guests from here can also take full advantage of Lahami's unique mini safari programs as RIB's can transfer guests to the boat no matter where she is within the Fury Shoals – meaning they can be flexible on when you would like to start your adventure.
